PRIVATE WIRES TO PRINCIPAL MARKETS OFFICIAL RANGE AND SALE OF STOCKS IN NEW YORK.

By THOMAS BRANCH & CO., Bankers and Brokers, Open. High. Low. Closing. Bld. Asked, Further Upward Movement Impossible and Apathetic Condition Is the Result.

NEW YORK, February 9.—The stock market lapsed into apathetic conditions again to-day after a demonstration of the futility of attempts to extend the upward movement of yester day. The demand from the shorts left uncovered after the selling of the end of last week was early exhausted and there was no further demand in sight. There was a good deal of interest in the action of the California Legislature on the bill to segregate Japanese chilledren in the public schools, regarding which no news was received from Sacramento during the Stock Exchange session. A fact which detracts from the inclinence which the sensational passages concerning Japanese relations might have otherwise is the sustained strength of the Japanese powernment bonds, the upward movement of which was resumed to-day in foreism markets on account of the favorable outlook for Japanese finances.

Quick Tactics.

The quick tactics pursued by the professional element was exemplified in the prompt profit-taking in Sloss-Sheffield Steel and Iron, after the announcement of the increase in the dividend rate. Some of yesterday's strong stocks were sharply reactionary also. People's Gas farnishing the notable example.

Reports of large orders coming in in spite of the halt in general trade was series.
